

Whatcom

COMMUNITY COLLEGE

Math Placement by Local High School Transcript

A goal of the Whatcom Community College math department is to encourage success in mathematics by helping students identify the right math placement. Students with recent local high school transcripts may place with the following charts.

Notes:

- Students in **AP classes** should take the **AP exam** and consult the [AP score chart](#) to determine if credit can be earned from the AP score. If credit cannot be earned through the AP score, consider using their high school transcript for placement.
- A [chart](#) is provided for placement based on [College in the High School \(CiHS\)](#) courses on a **high school** transcript, since not all students will be awarded college credit. A grade of D or better in a College in the High School course on an official **college transcript** can be evaluated as transfer course credit.
- If a student has taken only one semester of a two-semester math class, use a previously completed math class when looking at this chart.
- If a student earned an F in either semester of a math class, use a previously completed math class when looking at this chart.
- If a student earned at least a C grade in each semester of a year long class, the two semester grades may be averaged to determine their overall grade. For example, a student with an A and a C in the two semesters of a year-long course would look at "B (overall)" placement.

High School Transcript Placement Available for:

- [Bellingham HS](#)
- [Blaine HS](#)
- [Burlington-Edison HS](#)
- [Ferndale HS](#)
- [Lynden HS](#)
- [Lynden Christian HS](#)
- [Meridian HS](#)
- [Mt. Baker HS](#)
- [Nooksack Valley HS](#)
- [Sehome HS](#)
- [Squalicum HS](#)
- [Windward HS](#)

Advisors are available to help you figure out your options and explore your math goals.

Completed within 1 year example: Completed June 2023 – placement valid through September 2024.

Completed within 2 years example: Completed June 2023 – placement valid through September 2025.
