

# How to Enable Text Notifications

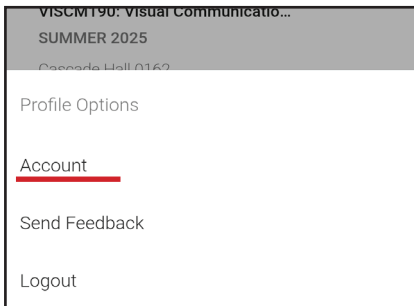

## Step 1.

- Open the Navigate360 Mobile App.

- Tap on the **Profile Options** (person on planner icon), in the top lefthand side of the screen.

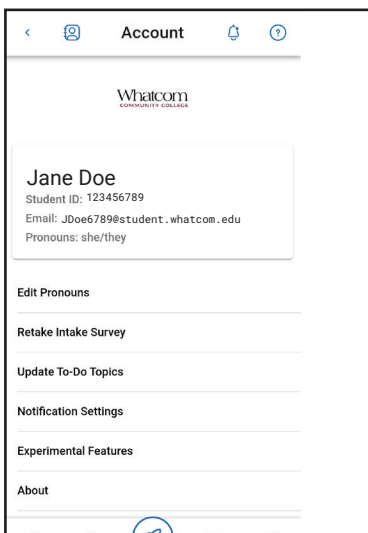

## Step 2.

This will bring up your Profile Options Menu.

- Tap on **“Account”**

## Step 3.

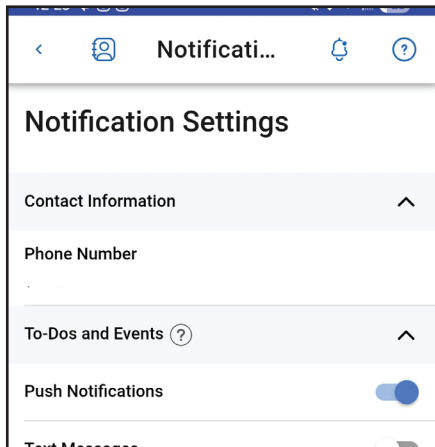

This is your Navigate360 Account Profile, you should see your personal information in place of Jane Doe.

- Tap on **Notification Settings.**

## Step 4.

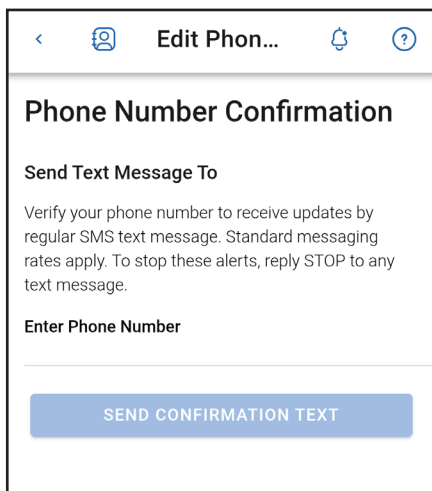

- Under Contact Information select **“Phone Number”**

## Step 5.

This will bring up Phone Number Confirmation Screen.

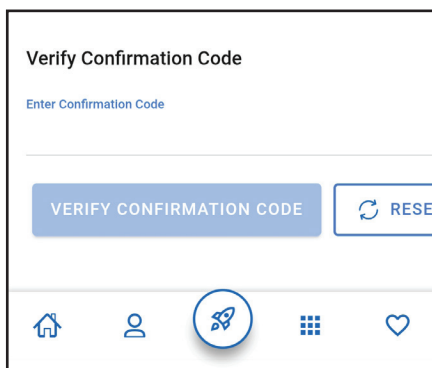

- Type in your phone number.
- Tap on **“Send Confirmation Text”**

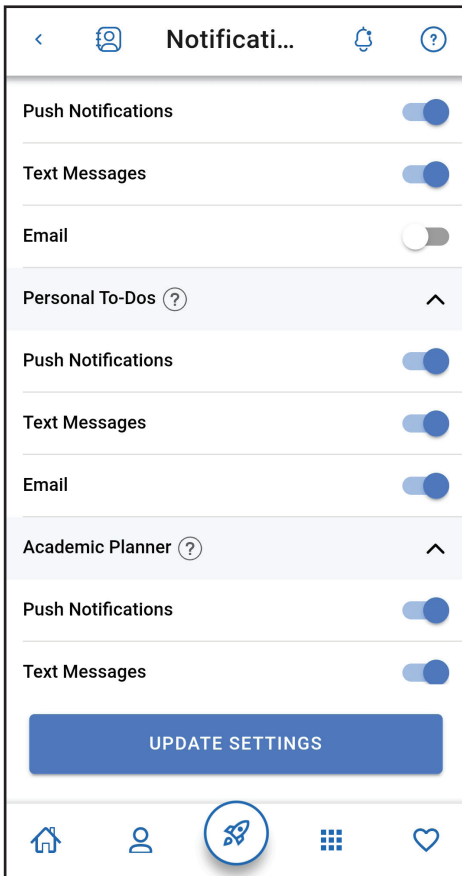

This will send a text confirmation code to your phone.

## Step 6.

- Enter the Confirmation code.
- Tap **“Verify Confirmation Code”**

## Step 7.

- Go through the Notification Settings page and enable **“Text Messages”** or **“Email”** for each topic you wish to receive notifications for.

- Tap **“Update Settings”** when you are done to save changes.

## Optional Step 8.

Open your settings app on your phone and navigate to App Notification settings. Make sure that you have Navigate360 push notifications enabled.
